Liquid Retina Display. The Liquid Retina display features industry-leading color accuracy for true-to-life color. The edge-to-edge display follows the curves of the design, down to the elegantly rounded corners. And with the lowest reflectivity in the industry, your apps will look incredible wherever users take their iPad Pro.

### **Developing iPad Apps - Apple Developer**

February 20, 2019. In an effort to keep accounts more secure, developers with the Account Holder role in a developer program will need to enable two-factor authentication to sign in to their Apple Developer account and Certificates, Identifiers & Profiles starting February 27, 2019.

### **News - Apple Developer**

Apple in its infinite wisdom decided to remove app management from iTunes and turn it into the media player/hub that they want it to be. My guess, is that they determined this is where the bigger revenue is for them.

### **Nine health and fitness apps to turn your Apple Watch into ...**

I think it's time we address a serious question. Where is the sleep tracker on our Apple Watch? Even with the newly released Apple Watch Series 3, it still doesn't offer a native sleep tracking feature. Yes, your Apple Watch, regardless of model and version, is capable of keeping an eye on your sleeping patterns.
