Invasion of Meridell can be a tricky old game. The earlier levels are just easy enough to lull you into a sense of false security so that you think the game will be simple enough to complete; then once you commit yourself to playing it suddenly increases the difficulty factor and leaves you tearing your hair out.

A cover system is a video game gameplay mechanic that allows a virtual avatar to hide from and avoid dangers, usually in a three-dimensional world. This method is a digital adaptation of the real-life military tactic of taking cover behind obstacles, for purposes of attaining protection from enemy ranged or area effect attacks, such as gunfire or explosions.
