Economics Of Clothing And Textiles

Fill this in with your information. Home Economics - Home Economics profession What is a person called who works in the field of home economics?

Home Economics - Home Economics profession - HEIA

Spinning is the twisting together of drawn-out strands of fibers to form yarn, and is a major part of the textile industry. The yarn is then used to create textiles, which are then used to make clothing and many other products. There are several industrial processes available to spin yarn, as well as hand-spinning techniques where the fiber is drawn out, twisted, and wound onto a bobbin.
