The Game Boy Player (ゲームボーイプレイヤー, Gēmu Bōi Purēyā) (DOL-017) is a device made by Nintendo for the Nintendo GameCube which enables Game Boy, Game Boy Color, or Game Boy Advance cartridges to be played on a television. It was the last Game Boy-based add-on to a Nintendo console. It connects via the high speed parallel port at the bottom of the GameCube and requires use ...

## Game Boy Player - Wikipedia

A PC game, also known as a computer game or personal computer game, is a video game played on a personal computer rather than a dedicated video game console or arcade machine. Its defining characteristics include: more diverse and user-determined gaming hardware and software; and generally greater capacity in input, processing, and video output.

Lurking is a sound-based survival thriller, where sound is the only way you see, and they hear your fears. Imagine, being engulfed by absolute darkness, and the only way to "see" is by create an "audio pulse" by walking or throwing objects. Take that, and add the notion that enemies in the game track you through these sound you make.
