USAID is a core partner for achieving the goals of the Global Health Security Agenda. The risks posed by outbreaks of infectious disease are not new, we know that, but in our interconnected world, they are intensifying.

Global Health Security Agenda | U.S. Agency for ...

Millions die each year from easily preventable diseases. Global factors such as poverty, access to health care, patent issues at the world trade organization (WTO) and the power of pharmaceutical companies are major problems. Global health initiatives to fight AIDS/HIV, malaria, tuberculosis (TB) and other global diseases have showed some encouraging signs, as well as political influences and ...
