

Natural Solution Foundation

Natural Solution Foundation

With morals and natural law under siege today, and the liberal agenda's cross hairs targeting our right to voice our moral convictions, we must be prepared to defend our position's legitimacy. 1 Either we accept that the foundation of morals and law lies in God's wisdom or we become mired in the quicksand of today's relativism. Without Objective Moral Law, Chaos Follows

Eternal and Natural Law: The Foundation of Morals and Law

R.I.P. Albert N. Stubblebine III Major General - United States Army Founding President Natural Solutions Foundation February 6, 1930 - February 6, 2017

Global capitalism is driving an ever-growing demand for resources. But the worldwide appetite for commodities—from the palm oil in food and cosmetics to precious metals that make smartphones work and fossil fuels that power entire economies—can conflict with people's demand for economic opportunity, human rights, and dignity.

Natural Resources and Climate Change / Ford Foundation

A natural building involves a range of building systems and materials that place major emphasis on sustainability. Ways of achieving sustainability through natural building focus on durability and the use of minimally processed, plentiful or renewable resources, as well as those that, while recycled or salvaged, produce healthy living environments and maintain indoor air quality.

The Wyland Foundation. Founded by renowned environmental artist Wyland, the Wyland Foundation has helped children and families around the nation to rediscover the importance of healthy oceans and waterways through public art programs, classroom science education, and live events.

Wyland Foundation

In chemistry, a solution is a special type of homogeneous mixture composed of two or more substances. In such a mixture, a solute is a substance dissolved in another substance, known as a solvent. The mixing process of a solution happens at a scale where the effects of chemical polarity are involved, resulting in interactions that are specific to solvation.
