100 Little Things About Pregnancy, Birth, and Being a ...

Months 1, 2 and 3 of Pregnancy. Usually the first symptom that indicates pregnancy is a missed period. Whether it's one day or three weeks late, you can confirm your pregnancy with an over-the-counter urine test (this detects the hormone hCG or human chorionic gonadotropin in the urine), or with a urine test, blood test or medical exam given in your doctor's office.

First Trimester Pregnancy Symptoms | Months 1, 2, and 3

Pregnancy, also known as gestation, is the time during which one or more offspring develops inside a woman. A multiple pregnancy involves more than one offspring, such as with twins. Pregnancy can occur by sexual intercourse or assisted reproductive technology. Childbirth typically occurs around 40 weeks from the last menstrual period (LMP). This is just over nine months, where each month ...
