The food and beverage industry exceeding \$7.5 trillion involves companies processing raw food materials, packaging, and distributing them. This includes fresh, prepared foods as well as packaged foods, and alcoholic and nonalcoholic beverages.

Food & Beverage Data Model - ADRM Software

The amount of packaging we consume today also reflects the lifestyles we live. There are regulations in place that require all packaging specifiers to reduce the amount of packaging used without compromising it's functionality, see The Packaging (Essential Requirements) Regulations 2015 (SI 2015/1640), which require that packaging is kept to the minimum volume and weight necessary for safety ...

Thanks to the Amazon Effect, fast and free delivery is the new normal, forcing other online sellers to

keep up. However, there's one area of e-commerce where online sellers can still compete logistically with Amazon and big box players: delivery of oversized, larger-than-parcel items, such as furniture, sofas, armoires, mattresses, treadmills, and more.
