

The Next Decade George Friedman

The Next Decade George Friedman

The Next Decade (book) Friedman conceptualizes America's successful management of world affairs not by directly enforcing countries, but by creating competing relationships, which offset one another, in the world's different regions. For example, in the past, Iraq balanced Iran, and currently Japan balances China.

The Next Decade by George Friedman (ebook) - ebooks.com

George Friedman's "The Next Decade" could alternately be described as Machiavelli 101 or a crash course in realpolitik. Friedman's central thrust is this: America is an accidental empire - like it or hate it, the world must deal with it - and it is thus in the United States' best interest to maintain the "balance of power" at all costs.
