### **What Does On The Spectrum**

In the world of special education there are many buzz words and phrases thrown around that people "in the know" understand but tend to confuse the general public. "On the spectrum" is one such phrase. Does this mean that a child or adult has autism? Does it mean they have Aspergers? What does it mean exactly? Let's take a moment to examine this.

How big a difference does spectrum make to plant growth? As long as a cannabis plant is getting bright light with at least some red and blue, it will grow normally, so any reputable plant grow light you get on the market will do the job and get you to harvest with top-quality buds! Although certainly not essential to healthy plant growth it is considered good form to choose lights in the ...

An idealized spectrum of electromagnetic radiation from the Sun, with a temperature of 6000 °C (~11,000 °F) , and the much cooler Earth, with a surface temperature of 15 °C (~60 °F). Wavelength along the horizontal axis (measured in microns where 1000 microns = 1mm) plotted against the amount of radiation emitted on the vertical axis. Note how the Sun emits the most radiation in the ...
